// SOMETIMES DEFIANT. BUT ALWAYS COMPLIANT.

BERRY COMPLIANT & MADE ON AMERICAN SOIL.

Zeagle supports military, commercial and public safety divers around the world with Berry Compliant BCDs that are made on American soil. Our BCDs serve those who serve their country, risk their lives, and dare to go where others don't in pursuit of something bigger. The Berry Amendment (Title 10, Section 2533a of the U.S Code) requires the Department of Defense to operate with American-made products. Zeagle's tested and trusted line of BCDs include the Ranger, Ranger LTD, Stiletto, Zena, SAR and Code 911 to ensure all military and Search and Rescue personnel comply with the Berry Amendment.

WHY ZEAGLE?

Dennis Bulin jumped out of airplanes for the thrill of it. Skydiving was his passion, but his sights were set on innovating the scuba diving industry. In 1979 he applied the same Ripcord technology in skydiving to Buoyancy Compensators in scuba diving-and just like that, Zeagle was born. Bulin believed that to get things done, he had to do them himself. Zeagle has been doing things our own way ever since.

In the '80s, we launched the industry's first Ripcord Release System. In the '90s we patented our Personal Fit System™, we produced dive's first Tech BC, and shifted the industry like never before to focus on heavy-duty professional style products using stainless steel hardware and ballistic materials. It's Berry Compliant and trusted by the U.S. Military and Search and Rescue teams around the globe. We scrutinize every stich, every material, every solution. Our gear is purposeful. If we believe something reinforcing, we reinforce it.

When divers begin their pursuit of the vast unknown with Zeagle, there's nothing they can't conquer - because Zeagle challenges the standards in pursuit of tougher, tested, more trusted dive gear.

// GUARANTEED

REGULATORS

Zeagle warrants its regulators against defects in materials and workmanship for the lifetime of the product except as noted below. This warranty does not cover normal wear, or damage from accident, abuse, neglect, alterations, improper usage, or failure to follow reasonable care and maintenance as outlined in this manual. Under this limited warranty, Zeagle will either repair or replace, at its sole option, any original equipment or parts that fail to perform as intended. To validate your warranty, you must complete and return your warranty registration card within 30 days of purchase or register online at Zeagle.com. The warranty card includes the model number and serial number. Please use this information if you choose to register your regulator online.

BCDS

BCDs PFS WITH PERSONAL FIT SYSTEM (PFS)

CUSTOMIZE YOUR KIT WITH ZEAGLE'S PERSONAL FIT SYSTEM

Zeagle understands that the demands of each job-and each dive-are specific to you. That's why Zeagle prides itself on offering the Personal Fit System (PFS), which lets you modify a BCD down to the smallest detail using interchangeable components. Whether you personally have a hard time finding a well-sized BC, you're seeking specific performance attributes to meet the needs of your profession, or you're excited to add some color to your kit, Zeagle's PFS can meet the custom requirements of your diving.

TESTED, TRUSTED-AND BERRY COMPLIANT

The Berry Amendment (Title 10, Section 2533a of the U.S Code) requires the Department of Defense to operate with American-made products, and Zeagle is proud to support military, commercial and public safety divers around the world with Berry Compliant BCDs that are made on American soil. Our BCDs serve those who serve our country, risk their lives, and dare to go where others don't in pursuit of something bigger. Zeagle's tested and trusted line of BCDs include the Ranger, Ranger LTD, Stiletto, Zena, Rescue 911, SAR and Code 3 to ensure all military and Search and Rescue personnel comply with the Berry Amendment.

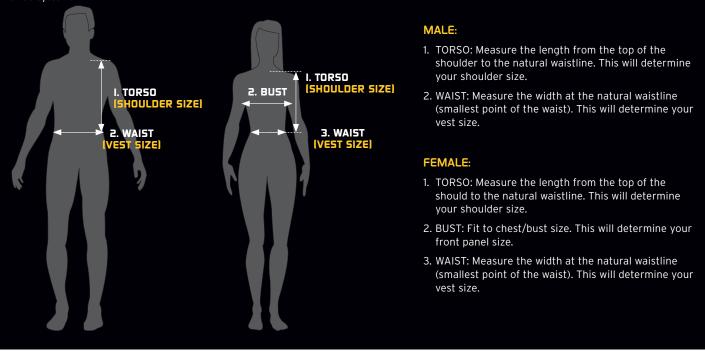

CLASSIC

The Personal Fit System starts with you and your specific measurements. Whether you're 4'10'' or 6'10'', male or female, slim or built, Zeagle has a bespoke sizing option to fit your needs and equipment preferences.

STEP I TAKE YOUR MEASUREMENTS

A true personal fit starts by taking your waist and shoulder measurements independently-this provides a foundation for a custom BCD that's specific to your body. Torso length (shoulder to waist dimension) can vary a great deal, even for individuals of the same height, so if you are either very short or long waisted in relation to your height or waist size, conventional "generic" sizing may not give you a good fit. Our interchangeable components allow you to fit waist size, torso length, and chest size independently, giving you a personally sized system.

For a complete fit of your Zeagle BCD use the **CUSTOM MEASUREMENT GUIDE** below to find your vest and shoulder size. If your vest size and shoulder size match (ie; both large), then your BCD will be stock size.

CUSTOM MEASUREMENT GUIDE

MEN'S					
TORSO	SHOULDER SIZE	WAIST	VEST SIZE		
12" - 16"	XS	23" - 29"	XS		
14" - 18"	S	28" - 35"	S

CLASSIC

STEP 2 CHOOSE YOUR HARNESS, BACKPLATE AND BLADDER

Decisions can be hard, but when you're starting with vests such as our world-class Ranger, Zena, Ranger LTD and Stiletto, making a choice gets a little easier. Put some meat on the bones by choosing your preferred backplate and harness, then a bladder assembly that meets your requirements.

CHOOSE YOUR HARNESS

VEST ASSEMBLY

The vest assembly is the core of a Zeagle BCD to which all other components are attached. The vest includes the weight system (where applicable), utility pockets and tank bands. Vest size measurement is the circumference taken at the top of the hip. The waist panel/cummerbund is always a single size and is sold separately from the vest section.

7957CR	Ranger vest assembly (XS-XXXL)
7959R	Ranger LTD vest assembly

Ranger vest assembly (XS-XXXL)		7757CR	911 vest assembly (XS-XL)
Ranger LTD vest assembly (does not include p/n 8043 weight pouches) (XS-XXXL)		7757HR	SAR vest assembly (S-XXL)
		7150RS	Stiletto vest assembly (XS-
		7450P	Zona vost assembly (XS-XI

WAIST PANEL (CUMMERBUND)

7169S	Stiletto waist panel
7969N	Ranger waist panel (XS-XL)
7969P-LTD	Ranger LTD waist panel (gray or black) (XS-XL)

7757HR	SAR vest assembly (S-XXL)
7150RS	Stiletto vest assembly (XS-XXXL)
7450R	Zena vest assembly (XS-XL)

	7969P	Pre-'09 Ranger LTD waist panel (XS-XL)			
or	7272BK	Panel Extender Packcloth			
	7969-BASE	Base Cummerbund (XS-XL)			
	7969-RESORTResort Cummerbund (XS-XXL)				

SHOULDER SECTION

The shoulder section is an important part of the fit of a Zeagle BC. The "shoulder" measurement goes from the top of the shoulder down to the top of the hip (the iliac crest). This section adjusts where the weight system and bladder assembly fit on the torso. All shoulder sections come with a sternum strap and the appropriate hose holder with model name.

7968C	Ranger shoulder section (XS-XXXL)	7768
7962LTD	Ranger LTD shoulder section (XS-	8101
	XXXL)	7468
7768-911	911 shoulder section (XS-XXL)	7168

7768-SAR	SAR shoulder section (S-XL)
8101	HALO shoulder section
7468	Zena shoulder section
7168S	Stiletto shoulder section

BCD PARTS & SERVICE ITEMS

BAGLESS BLADDER ASSEMBLIES

In order to create a more streamlined profile, several Zeagle BCDs use a "single bag" bladder assembly. Note that the assemblies below include an airway assembly and OPVs.

7033HD-Z	24 lb bagless bladder for Stiletto (post 2014)
7030HD-Z	35 lb bagless bladder for Stiletto (post 2014)
7035HD-Z	44 lb bagless bladder (post 2014)
7039HD-Z	24 lb bagless bladder fo Express Tech (post 2014)
7034-Z	34 lb bagless bladder for Zena (post 2014)

INNER BLADDERS AND BLADDER COVERS

Zeagle's "double bag" bladder assemblies consist of an outer fabric cover and an inner urethane bladder. The individual Bladder Covers and Inner Bladders can be purchased separately as needed.

0400EF	44 lb lift capacity inner bladder (Ranger)
0400EF-Z	44 lb lift capacity inner bladder (Ranger) (post 2014)
0400	44 lb lift bladder, single OPV (old style)
0422EF-Z	65 lb lift capacity inner bladder (Tech BC) (post 2014)
0400EFX	44 lb lift bladder with extra right hand dump
	point for Ranger LTD
0400EFX-Z	44 Ib lift bladder with extra right hand dump point for Ranger LTD (post 2014)
7756	Ranger bladder cover - two OPV holes
7765	Tech bladder cover
7765C	Rescue 911 and SAR bladder cover
7769LTD	Ranger LTD bladder cover (black or gray)
7040BP-IN	40 lb lift bladder inner bladder

EXTRA FEATURES THAT RAISE THE BAR

The Ranger LTD has everything its sibling (The Ranger) has, but with the additions of newly designed shoulders and a super-duty Airloc buckle that swivels to adjust the harness to the body's contour, eliminating binding and restriction of movement at the chest and underarm areas. With additional harness type webbing and a new threading arrangement, divers can easily add more D-rings and other accessories conveniently on the shoulder. These features allow the accessoryminded diver to further set up their BCD for all types of diving.

FULLY LOADED FOR LOCAL AND TRAVEL DIVING

Stiletto has a 24 lb capacity Ripcord Weight System®, a 16 lb capacity rear mount trim weight system, and is reinforced with 1000 Denier Nylon construction. It comes standard with a 36 lb low profile, heavyweight bladder with elastic retractor, and features two zippered utility pockets capable of handling all your accessories for both local and travel diving.

- Personal Fit System (PFS) allows for changing out sections of the BCD
- Reinforced 1000 Denier Nylon construction
- Sewn-on lumbar pad
- Two zippered utility pockets
- Adjustable and depth compensation cummerbund
- Adjustable sternum strap

OUSTANDING FIT AND COMFORT FOR WOMEN

Designed for women, the Zena's twin waist and hip band system provides a way to securely position weight below waist level around the body's center of buoyancy. As the twin straps adjust to waist and hips independently, they provide outstanding fit and comfort. The Zena closes in the front with a heavyduty zipper for a snug and secure, yet non-restrictive fit.

- Elastic front panels with zipper closure for a comfortable, secure fit and a streamlined profile
- · Dual waistbands allow weights to be positioned below waist level for superior comfort and balance
- · Quick release buckles on shoulders and body
- Expandable pocket at waist. 8033QP included
- Component sizing fits waist, torso length and chest size independently

APPROVED FOR PUBLIC SAFETY DIVERS

With a twin buckle front closure, Rescue 911 is based on the Tech BCD platform, but with additional features. SOLAS standard symbols on buckles, reflective trim on the bladder, additional D-rings, pockets for long octopus hose storage on each bladder wing, and an included split saddle harness. The Rescue 911 has proven to be a durable and flexible platform by a large number of public safety agencies.

- 1680 Denier Ballistic Nylon
- SOLAS reflective symbols on buckles
- Reflective 3M ScotchLite® trim on bladder
- Two hose storage pockets on bladder
- Articulated shoulder assembly using Airloc buckles will swivel to adjust the harness to the body's contour
- 11" spaced grommets for mounting twin cylinders

THE MOST EXPERIENCED SEARCH AND RESCUE BCD

A reliable BCD for search and rescue divers for 20 years, SAR is designed to fit the needs of Public Safety divers. It is similar to the Rescue 911, with the addition of a permanently installed lifting harness for helicopter, cliff, or swift water work. It comes with SOLAS standard symbols on buckles, reflective trim on the bladder, additional D-rings and pockets for long octopus hose storage on each bladder wing. The SAR has been proven to be a durable and flexible platform by public safety and military agencies in the US and abroad.

- 1680 Denier Ballistic Nylon
- SOLAS reflective symbols on buckles
- Reflective 3M ScotchLite® trim on bladder
- Two hose storage pockets on bladder
- Lift capacity of harness, 4,000 pounds
- Articulated shoulder assembly using Airloc buckles will swivel to adjust the harness to the body's contour

See all bladder options on pages 8 and 11

- 11" spaced grommets for mounting twin cylinders
- Single or twin cylinder capability
- Two double pull waist buckles in front
- Adjustable sternum strap
- Four D-rings on shoulders, two adjustable
- Two zippered utility pockets
- Small lumbar pad
- Integral lifting harness

THE NEXT STEP IN THE EVOLUTION OF SPORT BCDS

Bravo elevates every dive with superior design functionality and aesthetics. Generous easy access pockets, D-rings and adjustable cummerbund, and bladder material with 1000D black w/10mm TPU combats fading and abrasion. Hard webbing backplate with two tank bands, and an additional cinch-down strap tank band, secures the tank to the BC with confidence. Reinforced and color contrast stitching throughout highlights Bravo's dedication as every diver's ultimate dive companion.

- Dual adjustable tank band and tank positioning strap
- Adjustable cummerbund / waist panel and shoulder adjustment
- Updated weight system allows for easier loading and up to 10 lb ditchable weight on each side
- Large utility pocket

- Octo pocket
- Knife mounting positions on both sides

WHEN DURABLE IS BEAUTIFUL

Marina Sport is a women's wraparound jacket-design with personality that demands attention, and functionality that's unrivaled. Custom front zipper panels with optional colors gives a personal touch. The vest is exclusively designed for women, with hard webbing in the backplate and extra padding in the lower lumbar and neck areas for fit, comfort and function all-in-one. Marina takes the renowned durability that Zeagle is known for and blends beautiful design aesthetics.

- Hard webbing backplate eliminates bulky hard plastic backplate
- Extra padded areas designed for women in lumbar and neck
- Dual adjustable tank band and tank positioning strap
- Bladder designed for women with different pattern than regular men's BCDs

NEW AND IMPROVED TRAVEL-STYLE BCD

The new Covert XT is an improved, travel-style BCD that ensures traveling doesn't mean compromising quality. Its MOLLE system with additional accessory attachment points increases versatility over the previous version. Covert XT blends functionality, convenience and comfort with a redesigned front vest, 1000D nylon with durable elastic material, additional padded shoulders, larger weight pockets, and a redesigned weight release system. At 5 lb with inflator, it's the ultimate travel upgrade.

- Larger weight pockets and redesigned weight release
- Added tank positioning strap
- Integrated rubber row webbing on tank band strap secures tank
- Increased tank band webbing width secures tank
- Accessories sold separately to be used with MOLLE system, including small pocket for spare mask.

- Weight pouches included
- Additional padding using open cell foam on shoulder and lumbar
- Knife mounting points on both sides
- 4 plastic D-rings
- 1000D nylon with special durable elastic material
- Sizes XS (34 lbs lift); S (34 lbs lift); M (34 lbs lift); L (42 lbs lift); XL (42 lbs lift)

TRAVEL

//RESORT+ ··

MINIMALIST AND HARDWEARING JACKET-STYLE BCD

The Resort provides simple weight-integrated buoyancy in a comfortable BCD. This minimalist design provides plenty of D-rings, pockets and attachment points to keep the diver streamlined. Its adjustments, soft backpad, and durable materials make this jacket-style BCD perfect for men and women who want to simply stay focused on their dive.

- Reinforced and fade resistant Cordura[®] 500 Denier Nylon bladder material, 1000 Denier Nylon on shoulder straps, harness and pocket material

BREATHING EVOLVED.

THE MOST DEPENDABLE REGULATORS EVER MADE.

Zeagle regulators are assembled in the US, built under strict controls for quality in our own factory, using state of the art equipment and procedures.

Our regulators are consistently top-rated in objective evaluations of breathing performance. They have exceeded the highest standards, including the DIN EN 250 and the U.S. Navy Group A, for working at depth. Another Navy test concluded that our Envoy had no competition in its price class – even regulators costing hundreds of dollars more didn't exceed its overall performance.

We've also focused on aspects of regulator design that don't turn up in typical testing, like durability, longevity and consistent performance in cold water or adverse conditions.

As in everything we do, our regulators are based on a simple modular design. Customers can select from several 1st and 2nd stages to best suit their needs without compromising quality. We also design to keep maintenance simple. For example, you only need one repair kit for all 1st stages and one repair kit for all 2nd stages to service all our regulators.

REGULATOR SPECIFICATIONS

THE BEST PERFORMING DIAPHRAGM REG

The legendary Zeagle 1st stage is complemented with a new high-performing flagship 2nd stage. The result, the best performing diaphragm regulator on the market today.

HP/LP

2/5 PORTS

- Case design that is smaller, lighter and molded from high impact resistant materials
- First stage is coated with flat black chrome plating in order to protect the brass from corroding. A very durable black PVD is used to coat the high use port plugs, to protect from wear and tear and corrosion
- Personalize your F8 for color style with a color kit
- Front cover design with antisurge and new stylized "Z" logo
- Smaller mouthpiece with super soft silicone and color accented tear resistant "Bite" lugs
- Exhaust valve with improved dryness and lower exhalation effort
- Inhalation effort control knob for better grip and style
- COLOR KIT OPTIONS:

- Threaded cover ring for improved safety
- Heat sink with improved materials and greater surface area to dissipate cold
- Zirconium-plated inlet tube for increased corrosion resistance
- Inhalation diaphragm with improved response and tear strength
- Redesigned poppet with improved tolerances
- Patented seat saving orifice
- Low pressure 2nd stage seat
- 2nd stage spring made from super alloy

COLD-WATER BREATHING HAS NEVER BEEN SO EFFORTLESS

With the same attractive finish and outstanding performance as its predecessor (the Onyx), the Onyx II fills the need for those that find themselves in cooler water. Its internal structure allows direct airflow through the 1st stage, providing lower turbulence for outstanding performance.

Onyx II 1st Stage & 2nd Stage Yoke
Onyx II 1st Stage & 2nd Stage DIN
Onyx II Yoke 1st Stage
Onyx II DIN 1st Stage
Onyx II 2nd Stage

ENVOY II DIN

TREMENDOUS VALUE. UNCOMPROMISING PERFORMANCE.

The Envoy II is an incredible value, meeting or exceeding the performance of regulators that cost much more. Envoy II is an economical regulator that doesn't compromise on performance or reliability. Its lightweight 1st stage, with balanced diaphragm, is available in DIN or Yoke, and its 2nd stage has a downstream valve and Dive/Pre Dive Venturi control (with 30" hose length).

CE ZEAGLE RECON FIN THERE'S MORE BEYOND THE SURFACE

The Recon is a complete rethink of basic fin geometry, angles, surfaces and thicknesses, combining uncomplicated design with the latest aquadynamic technology. The result is the most revolutionary technical fin on the market, capable of industry-leading thrust and control for all types of alternative kicking styles.

Two thick side elastic response where flex and snapback is needed.

two top strakes, for thrust, less turbulence and a stable flutter kick.

COLOR ACCENT KITS for buckle and soft pad.

// ZEAGLE MASKS

A STRONG DUO. WITH PERSONALITY.

Custom color kits and multi-tool available. See next page for details. Scope is the first line of Zeagle masks, combining durability and comfort with accessories that are customizable. Simple, over-molded design is hard-wearing, and interchangeable lenses with multiple color strap options provide a touch of personality. Scope Dual and Mono are strong, personable masks that will last.

7500	Scope Dual (Silicone Strap included)
9903	Scope Elastic Strap Color Kits
	Black, Yellow, Red, Blue
9904	Scope Silicone Strap Color Kits
	Black
347-0108	Scope Multi-tool
9905	Optical Lens (+5.5 to -5.5)

SCOPE DUAL ··

SUBMERGED IN TOUGHNESS

Scope Dual enters the market by completely redefining durability. It's the only dual lens mask with a patented 100% submerged subframe with exposed silicone for increased protection. Customizable accessories like interchangeable optical lenses and personalized straps in 6 color options provide a touch of style for every dive.

- Proprietary Zeagle over-molded frameless design
- Interchangeable ultraclear and corrective lenses
- Soft-touch silicone face seal
- One-button thumb-operated buckle for easy adjustments
 on the fly
- Silicone and elastic strap color options

// SCOPE MONO <

SEE MORE. EVERY DIVE.

With Scope Mono, seeing truly is believing. Its low volume, wide field of vision gives the precision to focus on every underwater moment in full panoramic view. Large nose pocket and soft-touch silicone face seal provides unparalleled comfort; interchangeable straps in silicone or elastic with 4 color options give your customers more choice to customize and coordinate every dive.

- Proprietary Zeagle over-molded frameless design
- · Low volume, wide field of vision
- One-button thumb-operated buckle for easy adjustments on the fly
- Silicone and elastic strap color options

6500	Scope Mono (Elastic Strap included)
6500-R0	Scope Mono - Rescue Orange (Elastic Strap)
6500-GY	Scope Mono - Grey Camo (Elastic Strap)
9903	Scope Elastic Strap Color Kits Black, Yellow, Red, Blue
9904	Scope Silicone Strap Color Kits Black
347-0108	Scope Multi-tool

SUPERIOR AIR BOX PROTECTION

Scope Dual and Scope Mono both come with Zeagle's unique air box package. Its stackable, nose-shaped design connects the lid and bottom case to form two positions: a vented box to repel moisture, and an airtight box to prevent water, dirt and dust.

POSITION 1: vented box to prevent moisture

Rotate lid and bottom to seal mask in and protect

POSITION 2: airtight seal to prevent water, dirt and dust

CUSTOM COLOR KITS AND MULTI-TOOL AVAILABLE

Dual comes standard with gray silicone strap. Mono comes standard with gray elastic strap. Additional custom strap and color options available.

Custom Colors Available: Gray, Yellow, Red, Blue.

Straps include a Zeagle Multi-Tool, that can be used for all Zeagle regulators, masks and fins. Multi-Tool can also be ordered separately.

347-0108 Zeagle Fin/Mask Multi-tool
