NEW

2022 NEW PRODUCTS

New
75-125 lbs
Size

EDGE PFD

Updated for 2022

New features include a large easy access front pocket with internal organization, as well as the addition of a 75-125 lbs size offering. This new Youth/Adult size is perfect for teens and tweens, or smaller framed paddlers.

Ebb

Flo

EBB & FLO PFDS

Updated for 2022

New features include a secure zippered front pocket and easy access stash pocket. Available in several modern colorways along with hi-vis safety colors for both men & women.

Trekker

Cruiser

CRUISER & TREKKER PFDS

Updated for 2022

New features include two, large secure zippered pockets and neoprene lined hand warming pockets. The lined pockets are the perfect shelter for cold hands on windy days.

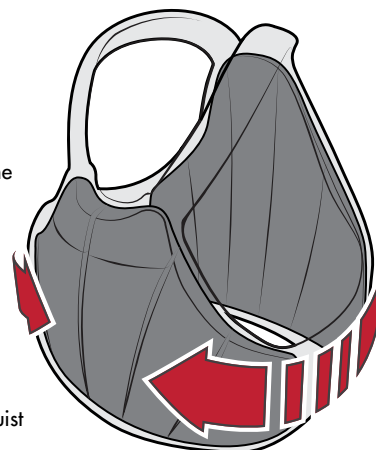

PFD FEATURES

These below features are unique to Stohlquist PFDs, and help create the best fitting PFD possible.

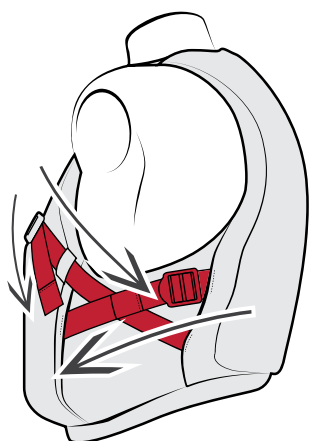

«WRAPTURE™ SHAPED TORSO»

The ergonomic WRAPTURE™ shaped torso utilizes reverse articulated foam & convex interior seams to provide a close, low profile fit. The foam contours to the natural shape of the body allowing for optimal comfort. The WRAPTURE™ torso provides the most secure and comfortable fit without the tight & restrictive feeling of conventional flat-foam construction.

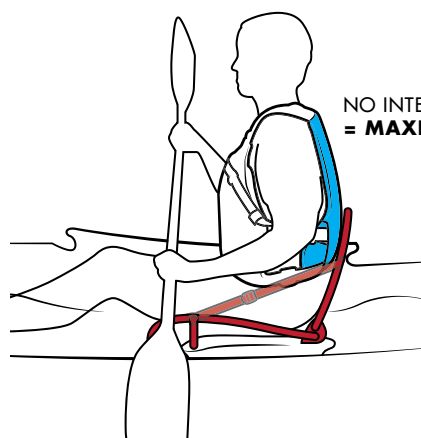

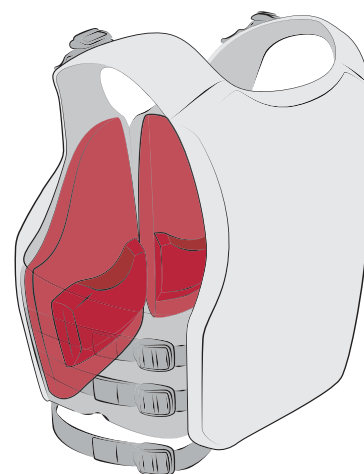

«CROSS-CHEST CINCH

The innovative Cross-Chest Cinch harness, found only on Stohlquist PFDs, offers the most unique fit of any PFD, by keeping the vest down & in place, to eliminate ride-up. The diagonal, front-to-back adjustment results in more mobility and a streamlined fit without being tight or restrictive. As a result, the "cinch" prevents and eliminates chafing on your chin and underarms caused by annoying vest ride-up.

SCULPTED INTERIOR CUPS»

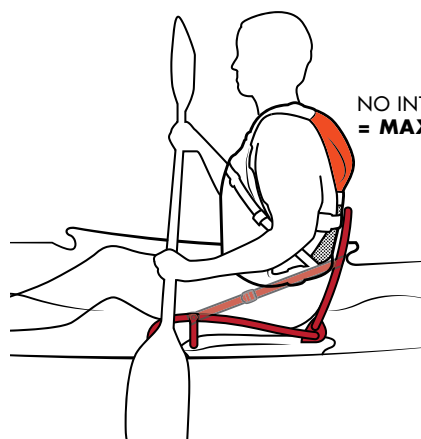

Many of Stohlquist's women specific PFDs feature sculpted interior cups; these offer a better fitting and more comfortable PFD for women. Buoyancy foam is sculpted and contoured to a woman's bust, and wraps rather than crushes. On PFDs featuring PE buoyancy foam, we sculpt multiple foam layers to achieve the same effect.

NO INTERFERENCE
= MAXIMUM COMFORT

«THIN-BACK PFD DESIGNS

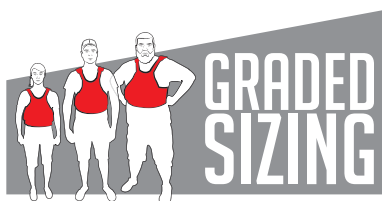

Thinner back panels help avoid interference, and provide maximum comfort with today's higher seat backs. By spreading the flotation elements over a wider area, we decrease the thickness of the PFD back, without increasing bulk in other areas of the vest. This not only creates less bulk behind the wearer, but also ensures that a thin-back PFD will work with seat backs of any height or style.

NO INTERFERENCE
= MAXIMUM COMFORT

«HIGHER MESH-BACK DESIGNS

Our new, higher mesh-back designs better accommodate the taller seat backs which are becoming more common on today's recreational/fishing kayaks and canoes. By increasing the height of the mesh back panel, along with sculpting and contouring the edges of the back foam elements, the new mesh-back designs will avoid interference with even the tallest seat backs. By sculpting the bottom of the back foam elements we also eliminate edges that often get hung up on seat backs.

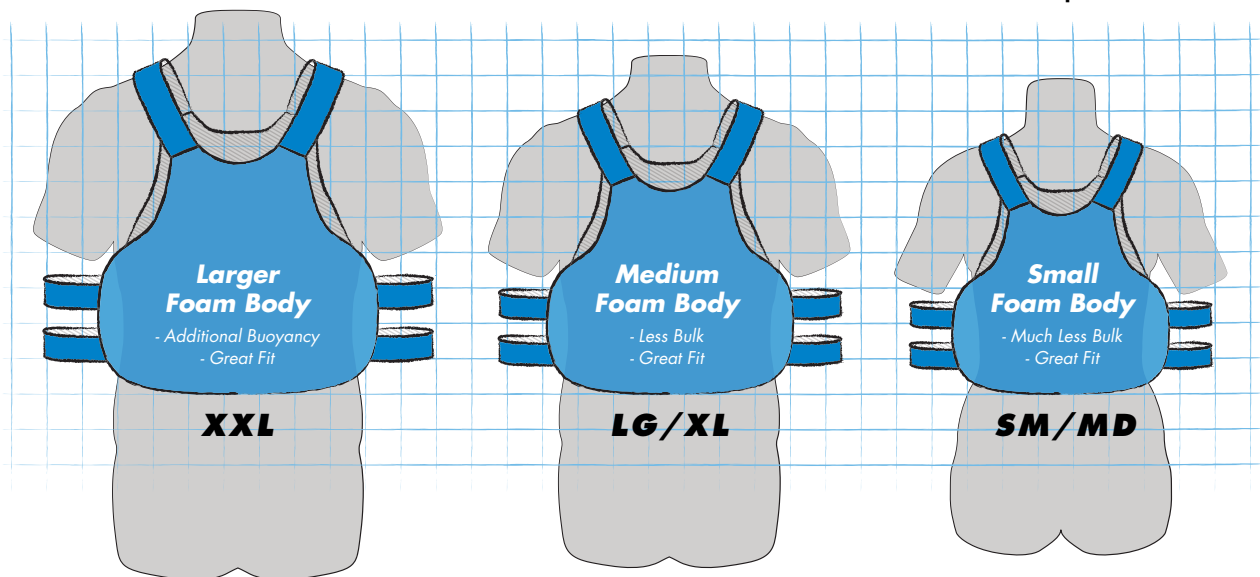

GRADED SIZING™ = ULTIMATE FIT

Stohlquist's Graded Sizing™ offers the best fit, and lowest footprint possible, for the widest range of body types. We have fine tuned each individual size, and sculpted the foam footprint and foam thicknesses to provide a better fitting, and more comfortable PFD for people of all sizes. This allows us to fit younger, smaller framed paddlers up to larger adults in the same style vest, while offering the same amount of mobility and a low-profile fit across the entire size range.

GRADED SIZING™

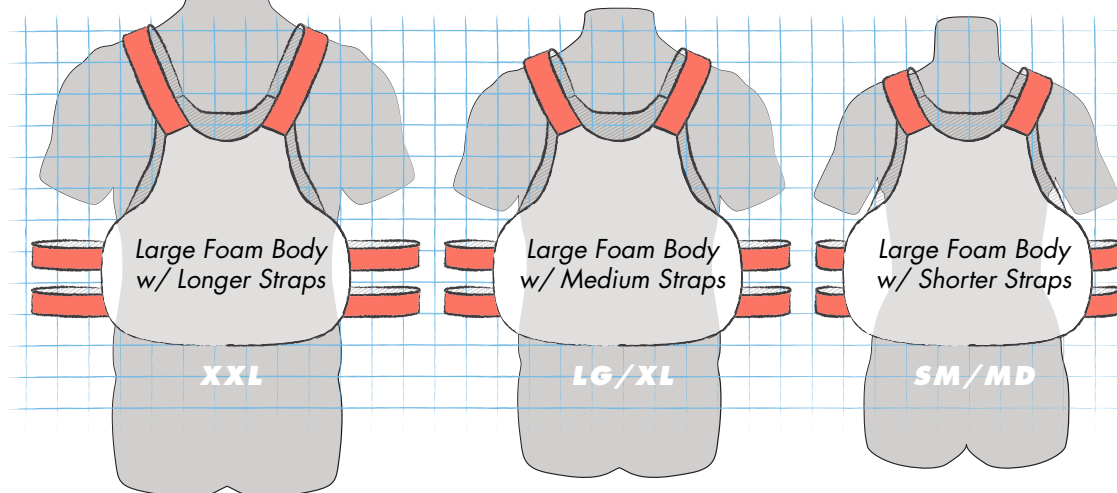

*Chassis varies in size to match the size of the paddler

GRADED SIZING™ provides the correct chassis (flotation foam) dimensions for every size paddler. A size XXL has more foam, and a larger chassis to provide the ideal buoyancy and fit. Sizes SM/MD and LG/XL are each designed with less foam, and a smaller chassis to better fit paddlers of those sizes.

SIZING OF OTHER MANUFACTURERS

*Chassis is the same on all PFD sizes

Other PFD manufacturers today adjust the size of their PFDs by increasing/decreasing the length of shoulder and side straps. The overall chassis (flotation foam) does not change between PFD sizes. This means that paddlers who need a size SM/MD or LG/XL PFD have to accept a larger, more bulky PFD than required.

STORM - JANE/JOHN

This 3mm standard neoprene jane/john provides excellent thermal protection, and features durable flat-lock seams throughout. Perfect for rental programs. Reinforced SupraTex knees and seat for added durability and abrasion resistance. Relief zippers feature elastic zipper locks and non-corrosive YKK zippers. Color-coded interiors make sizes easy to identify quickly in rental programs.

- » Women's pattern features fewer seams and light blue graphics and highlights
- » 3mm standard neoprene
- » Color-coded interior panels for quick size identification
- » Flat-lock seams for comfort and maximum durability
- » Heavy-duty, non-corrosive #10 YKK entry zipper
- » Relief zipper with elastic zipper lock on both men's & women's models
- » U-shaped cuff openings for easier donning/doffing
- » Extra wide arm holes for added mobility
- » Integrated SupraTex knees and seat for added durability and abrasion resistance

TIDELINE

The Tideline features a 5mm neoprene upper, heavy-duty zipper, and a gusseted zipper opening which helps to reduce water exchange. The thick rubber outsole features a proprietary Stohlquist tread pattern for outstanding traction. The ergonomic shape, which echoes the natural shape of the foot, allows for the best possible fit and comfort in a paddling boot. The Ergo™ shape also helps to increase the overall warmth of the boot, by contouring the foot and minimizing water pockets.

- » 5mm standard neoprene upper
- » Vulcanized rubber outsole
- » Non-corrosive #10 YKK zipper with zipper lock
- » Rubber toe and heel caps for added protection
- » Packaged in PVC-free Ziploc poly bag

BODHI WATERSHOE

The perfect watershoe for those who do not need the coverage and warmth of a traditional neoprene bootie. Great for recreational paddlers and SUPers enjoying warm days on the water.

- » Ergonomically shaped footbed for maximum comfort
- » Molded EVA insole for added comfort and support
- » Quick drying nylone upper
- » Mesh is placed to allow for maximum cross ventilation and drainage. Purge holes at heel ensures all water drains out while seated in a boat
- » Large pull loops help with donning/doffing
- » Non-slip, TPR outsole

Packaged on reusable hanger

TOASTERS

A paddler's glove offering protection and warmth for those who prefer the feel of the paddle, helping you retain precise control. The skin-out allows water to roll off, reducing evaporative heat loss.

- » 2mm neoprene skin-out for warmth and wind protection
- » Lightweight waterproof cuff
- » Webbing strap for rolling up and securing on paddle shaft, snapping together for drying, or for compact storage

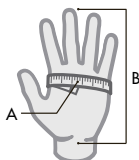

Part#	Description	Color	Size	UPC Code
GL1441501UN	Toasters	Black/Silver	One Size	053242232470

CONTACT

The Contact's design has a non-slip grip similar to bare hands, wet or dry.

- » 3mm neoprene back for warmth and wind protection
- » 4-way stretch palm
- » Absorbent terry cloth brow-wipe on index finger
- » Reinforced thumb panel for added durability and comfort
- » Pull-on design with low profile cuff

SQUEEZE LOCK

The Squeeze Lock knife's 3" blade securely locks into the sheath with our patented locking mechanism (Patent #5,926,959). An easy squeeze of the handle releases the knife. Multiple mounting options and compact size make the Squeeze Lock the knife of choice among boaters.

- » 3" blade, overall length 6.5"
- » 304 series stainless steel

*Sheath features integrated belt buckle clip and mounting points.

KN1340601UN	Squeeze Lock Blunt Tip	Red	3" Blade	053242216159

CROTCH HARNESS

When you really need to lock it down. The crotch harness eliminates any chance of ride-up during big water swims. Great for rescue swimmers and guides, or adding that extra bit of insurance for swims.

- » For use with the Canyon PFDs
- » Quick release buckles on both straps ensure you can easily separate from the harness if needed
- » Two straps with quick-release buckles included

Part#	Description	Color	Size	UPC Code
TH1590101	Crotch Harness	Black	Univ	053242322485

ADD-A-BUOY

The Add-A-Buoy buoyancy bladder is designed to fit in the front pocket of the Stohlquist Descent PFD. The bladder will increase the overall lift and face-up tendency of the vest, which can be especially useful when swimming big water rapids or stormy open waters.

- » For use with the Descent PFD
- » Adds a maximum of 5 lbs. of additional buoyancy, a 30% increase

Part#	Description	Color	Size	UPC Code
QF1970701UN	Add-a-Buoy	Yellow/Black	Univ	053242227766

RE-TRAXT

Shock loaded tubular webbing absorbs impact from towing and stows compressed, close to your side. All models come with a paddle biner and 1/4" x 1 1/2" welded black oxide, stainless steel O-ring that feeds onto a PFD quick-release belt. The 4' SC Re-Traxt is designed with a hook & loop attachment piece for self-centering on the back of the Descent PFD.

Part#	Description	Color	Size	UPC Code
TH160001	4' Re-Traxt	Black	4'	873358004606
TH160002	12' Re-Traxt	Black	12'	873358004613
TH160000	4' SC Re-Traxt	Black	4'	053242225427

1 1/2" QR BELT

The 1 1/2" wide quick release belt have been tested to withstand 1,100 lbs loads. Perfect for towing applications. Trim to customize fit.

- » 1 1/2" QR Belt (Length 60")

***O-ring not included**

Part#	Description	Color	Size	UPC Code
QF1900101XL	1 1/2" QR Belt	Black	1 1/2"	053242205139

O - RING

The self-centering (SC) 1 1/2" black oxide, stainless steel O-ring has an attached hook & loop piece which mates up with those found the back of select Stohlquist PFDs. The hook & loop helps keep the O-ring centered on the back during tows, swims, and gear retrievals.

Part#	Description	Color	Size	UPC Code
QF2040101UN	SC O-Ring	Black	1 1/2"	05324225441

NOTES:

WARRANTY INFORMATION

STOHLQUIST LIMITED LIFETIME WARRANTY

» Stohlquist products (excluding drywear) are warranted to the original purchaser for the reasonable lifetime of the product against manufacturing defects and workmanship. Stohlquist is not responsible for products that are abused or show normal wear and tear over time. Please see care instructions for the product you are purchasing so as to maximize the life of the product.

THINGS THAT VOID A WARRANTY

- » Damages caused by repairs made at an unauthorized repair shop.
- » Wetsuits classified as "used" or "second" (sold with defects).
- » Products used in **commercial operations, rental programs, and instructional programs.**
- » Fit issues that arise after a product has been used.
- » Purchases/shipments made outside the USA & Canada.

WARRANTY PROCEDURE

- » A return authorization is required for all warranty or repair items. Please follow the below steps when seeking return authorization.
 1. Contact Stohlquist Customer Service prior to sending in all warranty or repair items.
 2. If possible, email a photo of the warranty item in question, along with information on the date of purchase, and the PO# that is printed on the product.
 3. This information will help to speed up the warranty process.

**Note that freight costs will be paid by Stohlquist within the USA only.*

**Note that product should not be shipped to Stohlquist for warranty, or repair without prior return authorization.*
